

Colors

```
graph BT; XColor_t[XColor_t] -.->|prelight, normal, active, selected| Colors[Colors];
```

The diagram illustrates an inheritance relationship. At the bottom is a gray-shaded box labeled 'XColor_t'. A dashed purple arrow points upwards from this box to a white box labeled 'Colors' at the top. Along the arrow, the following states are listed: 'prelight', 'normal', 'active', and 'selected'.

prelight
normal
active
selected

XColor_t
